Northern Ireland Agri-Food Industry

The Northern Ireland Agri-Food sector is at the heart of our local economy.

Largest manufacturing industry. With 77% of our produce consumed beyond our borders.

Contributes £5.4bn to the economy & employs 113,000 people, making it the 2nd largest employer in N. Ireland.

Farm Gate - Dairy Production

Milk production is one of NI's biggest agricultural enterprises.

Herd health and well being is of the utmost importance for every dairy farmer with on-farm milk quality having a huge impact on final product quality – esp. products like baby formula, cheese, yogurts etc.

Career Pathways include:-

- Parlour & Bulk Tank Design Engineers
 - Farm Inspectors
- Animal Feed Nutritionists
 - Farm Managers

David Patterson, Dairy Herd Mgt. Adviser, Dale Farm

To The Factory - Dairy Processing

The sector is well known for producing a wide variety of high quality, nutritious dairy products.

For food safety and food spoilage reasons, milk must be pasteurised and homogenized during production and processing.

Careers within Production & Processing are both lucrative and diverse, spanning:-

- Food Microbiologists & Chemists
- Technical & Compliance Roles
- Formulation & Nutrition
- Production Mgt.

Maria Mullan,
Production Mgr.
Dale Farm

Dairy Processing

NI's Agri-Food sector strives to produce the highest quality products.

Process improvement is continual, with a constant focus on reducing waste, energy usage, reviewing packaging content.

Careers Include:-

- Lean Manufacture
- Engineering & Robotics
- Packaging Science & Technology
- Food Sustainability & Policy

Food & Rural Enterprise

Jemma Cosgrove, Technical Service Mgr. Saputo Cheese

Innovation & Marketing

Getting the right mix of products to meet the customer needs/wants = teams working in R&D, NPD, Consumer Insights & Marketing.

Successful companies will be those most responsive to changing consumer demands e.g. demand for plant-based diets/milk alternatives. e.g.

- Potato Milk
- Rice Milk
- Hemp Milk
- Hazelnut Milk

Kaitlyn Martin
Marketing Mgr. Dale Farm

Packaging To Go..

Advances in food processing and packaging play a key role in keeping the NI food supply among the safest in the world.

It maintains the benefits of food post-production, extending shelf-life and enabling foods to travel safely for long distances and still be wholesome at the time of consumption.

It's a multi-million pound industry with roles for many of our food graduates.

NPD Co-Ordinator,
Hutamaki

Logistics & Warehousing

This sector plays a vital role within any food supply chain. Without it, raw material, work in progress (WIP) & finished product would not be available for sale.

Career routes span Roads, Rail Air & Sea.

Careers include:-

- Transport Manager
- Logistics Co-Ordinators
- Compliance & Training
 - Export Advisers

Fionnuala McKeown
Technical Manager

Sales & Commercial Mgt.

Buying & selling product needs managed at every stage of the agri-food supply chain.
- especially when dealing with retailers.

Why?

.. because it has a massive impact on the price you receive, the promotion of the product, the position in store and on shelves.

Careers pathways span:-

- Category Management
 - Sourcing, Buying
- Financial Management
 - Retail Management

Paul McAlinden,
Supply Chain Mgr.
Henderson Group

Supply Chain Sustainability

Sustainability across the agri-food supply chain is non-negotiable.

Companies work hard to ensure economic-viability resulting in career pathways in:-

- Land Management
- Herd Management
- Waste Reduction & Renewables
- Packaging Reductions

David Hughes
Environmental Mgr.
Lakeland Dairies
